

# REBWAK

REAL BUILDING WORKERS ASSOCIATION OF KENYA

# ORGANIZATION PROFILE

# Hi we are Rebwak

## Who we are.

Real Building Workers Association of Kenya (REBWAK) is a non-political and non-profit making organization registered in 2019, under Societies Act, CAP 108, laws of Kenya; to bring together construction workers in the country for proper harnessing of skills, talents and gifts.

The main functions of the Association are promotion of professional conduct, offer a collective voice on policy issues, welfare and empowerment as well as self-regulate members for national development.

*Uniting Strengths, Developing Skills*

# OUR STORY

The Real Building Workers Association of Kenya (REBWAK) tackles informal labor and skill shortages in construction. Through training, certification, Accreditation, and social protection, we aim to transform the industry. Our motto, "Uniting Strengths, Developing Skills," reflects our commitment to collaboration, enhancing standards, and improving worker welfare.

## MISSION

To bring together construction workers in the republic of Kenya, for proper harnessing of skills, talents and nurture upcoming artisans for national development.

## VISION

To develop the capacity of construction workers through holding training workshops in collaboration with government regulatory agencies as well as other relevant private entities to promote professionalism and integrity.

## VALUES

Professionalism | Integrity | Teamwork | Excellence | Innovation | Respect | Accountability

# WORK

## What We Do.

- We bring together building and construction workers for proper harnessing of skills, talents or gifts, and nurture upcoming artisans for national development;
- We collaborate with government regulatory agencies such as the National Construction Authority, National Industrial Training Authority, and others on matters of accreditation, registration, employment, and licensing of construction professionals, as well as approval of construction projects.

- We create awareness to our members and members of the public on matters affecting construction through holding training symposia, workshops, expos, or through print media, television programs and electronic media, in partnership with government agencies and private entities.
- We liaise with state corporations, agencies, county governments, local and international technical institutions, organizations and associations, private companies and developers to secure attachment, internship and employment opportunities for our members;
- We bring together the construction workers in order to empower them through our activities and to foster unity among stakeholders in the construction field/industry so as to promote professional ethic and integrity;

# Our Partners

REBWAK has proudly collaborated with esteemed partners leading to successful events/forums. Moving forward, we aim to strengthen these alliances and forge new partnerships with government bodies, NGOs, private organizations, and professional associations to continue advancing Kenya's construction industry.
